

Don't miss! » Plant Phenomics Workshop @PAG XX 2012

Tuesday | Pacific Salon 1 | January 17th at 3:50 pm
@ PAG XX Conference · Town and Country Hotel · San Diego · CA

LemnaTec » **Plant Phenomics** « Workshop

- » 3:50 pm **Peter Langridge** · Australian Centre for Plant Functional Genomics · University of Adelaide · Adelaide · SA 5064 · Australia (peter.langridge@acpfg.com.au)
»Evaluation of Abiotic Stress Tolerance in Conventional and Transgenic Wheat and Barley«
- » 4:15 pm **Jon Lightner** · Pioneer Hi-Breed Int'l · Johnston · IA · USA (jonathan.lightner@pioneer.com)
»Application of Hyperspectral Imaging in Precision Phenotyping Systems«
- » 4:40 pm **Anjali S. Iyer-Pascuzzi** · Department of Biology and IGSP Center for Systems Biology Duke University · Durham · NC · USA (asi2@duke.edu)
»High-throughput Imaging and Phenotyping of Root Systems«
- » 5:05 pm **C. Eduardo Vallejos** · Department of Horticultural Sciences · University of Florida Gainesville · FL 32611-0690 · USA (vallejos@ufl.edu)
»Development of Gene-Based Crop Simulation Models to Predict Crop Phenotypes Using Genotype and Environmental Data«
- » 5:30 pm **Edwin van der Vossen** · Keygene N.V. · Agro Business Park 90 · 6708 PW Wageningen The Netherlands (edwin.van-der-vossen@keygene.com)
»PhenoFab® – Digital Phenotyping Applications in Plants«
